KEY INFORMATION

Prepaid rates are, until the taxable event for the rates has occurred, refundable at the request of the ratepayer. Rates received in advance give rise to a financial liability. On 1 July 2021 the prepaid rates were recognised as a financial asset and a related amount was recognised as a financial liability and no income was recognised. When the taxable event occurs the financial liability is extinguished and income recognised for the prepaid rates that have not been refunded.

#### SIGNIFICANT ACCOUNTING POLICIES

Each class of fixed assets within either plant and equipment or infrastructure, is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Financial Management Regulation 17A (5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

#### Initial recognition and measurement for assets held at cost

Plant and equipment including furniture and equipment is recognised at cost on acquisition in accordance with *Financial Management Regulation 17A*. Where acquired at no cost the asset is initially recognise at fair value. Assets held at cost are depreciated and assessed for impairment annually.

#### Initial recognition and measurement between mandatory revaluation dates for assets held at fair value

In relation to this initial measurement, cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at zero cost or otherwise significantly less than fair value, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the Shire includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads.

All debenture repayments were financed by general purpose revenue.

The Shire has no unspent debenture funds as at 30th June 2025, nor is it expected to have unspent funds as at 30th June 2026.

**KEY INFORMATION**

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset until such time as the asset is substantially ready for its intended use or sale.

Fair values of borrowings are not materially different to their carrying amounts, since the interest payable on those borrowings is either close to current market rates or the borrowings are of a short term nature. Non-current borrowings fair values are based on discounted cash flows using a current borrowing rate.

**KEY INFORMATION**

At inception of a contract, the Shire assesses if the contract contains or is a lease. A contract is or contains a lease, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. At the commencement date, a right of use asset is recognised at cost and lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Shire uses its incremental borrowing rate.

All contracts classified as short-term leases (i.e. a lease with a remaining term of 12 months or less) and leases of low value assets are recognised as an operating expense on a straight-line basis over the term of the lease.

**Summary of Report:**

The Shire of Wandering currently has a bank overdraft facility in place. This overdraft facility was established to provide a source of funding, should it be needed, early in the financial year until rate income is received.

**Background:**

The Shire currently holds an overdraft facility that has been in place since May 2025, with an approved limit of \$300,000. The facility has not been utilised during the past 12 months, and no withdrawals have been made from the overdraft during this period.

As part of the Shire’s annual audit process, the external auditors noted the quantum of the approved overdraft facility, identifying that the availability of this unused credit facility presents a potential contingent financial exposure for the Shire should it be drawn upon.

To reduce this risk, it is being proposed that the Shire consider reducing the current limit of the established overdraft facility with the Commonwealth Bank.

**Consultation:**

Councillors at the March General Planning Forum  
Chief Executive Officer

**Statutory Environment:**

Local Government Act 1995,  
Local Government (Financial Management) Regulations 1996

**Policy Implications:**

Not applicable.

**Financial Implications:**

There are costs associated with establishing an overdraft facility and then ongoing costs to retain the facility plus interest expense on any money drawn from the overdraft.

**Strategic Implications:**

**Improve Our Financial Position**

Our Goals	Our Strategies
The Wandering Shire is financially sustainable	<ul style="list-style-type: none"> <li>• Improve accountability and transparency</li> <li>• Develop an investment strategy that plans for the future and provides cash backed reserves to meet operational needs</li> <li>• Prudently manage our financial resources to ensure value for money</li> <li>• Reduce reliance on operational grants</li> </ul>

**Risk Implications:**

<b>Risk</b>	<b>Low</b>
<b>There has been no requirement to draw on this overdraft facility at any time over the last 12 months.</b>	
<b>The limit on this overdraft facility is being reduced, thereby reducing the potential financial liability or any future withdrawals.</b>	

**Voting Requirements:**

**Officer Recommendation:**

**That Council authorise the Chief Executive Officer to reduce the limit of the Shire’s overdraft facility with the Commonwealth Bank from \$300,000 to \$150,000.**

#### **Summary of Report:**

The landowners at 944 Moramocking Road, Wandering, are seeking a development approval exemption for a temporary structure, to complete a 'Bat Cave Project' on their property.

#### **Background:**

The landowners, Kenneth & Grete Rasmussen of 944 Moramocking Road, Wandering, are seeking a development approval exemption for a temporary structure, on their property.

The proponent has made the following statements to support their request for a planning exemption:

#### **1. Temporary Nature of the Activity**

The activity involves no permanent construction or foundations of any kind. The prefabricated components rest on the ground only temporarily and are not fixed, anchored or attached in any way that alters the land. All elements are fully removable, leaving no residual impact.

#### **2. Non-Commercial, Private Use**

The project is entirely non-commercial. It involves no business activity, trading, income generation or public traffic. It is a private, hobby-based environmental initiative, consistent with ordinary lawful use of private rural land.

#### **3. No Impact on Amenity or Surroundings**

The project does not create noise, vibration, emissions, odour or traffic beyond normal rural activity. Visual impact is temporary and confined to their private property, with no public access or exposure.

#### **4. Environmental and Public-Interest Value**

The project supports conservation of the endangered Ghost Bat and aligns with environmental stewardship objectives. It presents no risk or burden to the locality.

#### **5. Significant Investment and Good-Faith Engagement**

The proponent has invested substantial time, resources and personal effort into this project. They have currently paused all work pending the determination of the Shire, thereby demonstrating their willingness to cooperate fully. The proponent has indicated that they are willing to abide by any conditions the Shire may choose to impose on them as part of its consideration of this planning exemption.

#### **Consultation:**

The Chief Executive Officer  
Councillors  
Altus Planning

**Statutory Environment:**

Pursuant to clause 61(1), Table Item 17 of the Deemed Provisions contained within Schedule 2 of the Planning and Development (Local Planning Schemes) Regulations 2015, development approval is not required for temporary works that are in existence for less than 48 hours, or a longer period agreed by the local government, in any 12-month period.

**Policy Implications:**

Not applicable.

**Financial Implications:**

Not applicable.

**Strategic Implications:**

Not applicable.

**Risk Implications:**

<b>Risk</b>	<b>Low</b>
<b>Approval is granted for a fixed term of three and a half months, taking into account that the project commenced in August 2025. There is no intention to extend the approval beyond the permissible 12-month exemption period under the relevant planning legislation.</b>	

**Voting Requirements:**

Simple Majority

**Officer Recommendation:**

**That Council**

- 1. Confirms that the temporary pre-assembly work already undertaken does not constitute development requiring planning approval subject to compliance with the conditions below; and**
- 2. Pursuant to clause 61(1), Table Item 17 of the Deemed Provisions contained within Schedule 2 of the *Planning and Development (Local Planning Schemes) Regulations 2015*, grants a development approval exemption for the proposed temporary structure at 944 Moramocking Road, Wandering, subject to the following conditions:**
  - a) The exemption applies only until 31 July 2026, after which the structure must be removed from the site.**
  - b) The structure is not to house live bats at any stage while located within the Shire of Wandering.**
  - c) The structure is to be made available for inspection by a designated Shire Officer at any time during the exemption period, with a minimum of two (2) hours' notice, and inspections are to occur only between 8.00am and 5.00pm.**
  - d) The landowner is reminded of their ongoing obligations under the Environmental Protection (Noise) Regulations 1997 or any successor legislation.**
  - e) Temporary pre-assembly works and associated activities are to continue to be undertaken only during normal business hours.**
  - f) The proponent is to ensure that, at all times, the location of the temporary structure and any associated works remain wholly within the property boundary and maintains all required setbacks in accordance with the applicable planning provisions.**
- 3. Notes that Council's decision relates solely to planning matters and that any civil disputes between neighbouring landowners—other than matters directly arising from non-compliance with this exemption—remain private matters to be resolved by the affected parties and do not fall within Council's role or jurisdiction.**

30 March 2026

Chief Executive Officer  
Shire of Wandering  
22 Watts Street  
Wandering WA 6308

Dear Chief Executive Officer,

We wish to extend our sincere thanks to the Shire for its time and consideration in reviewing our request to continue working on our project currently located on our privately owned land within the district. We value the Council's role in responsible land use and community wellbeing and appreciate the opportunity to provide additional information.

We write to formally request that the Shire consider granting a planning approval exemption (or provide written confirmation that no development approval is required) in relation to the temporary, non-commercial pre-assembly work being undertaken on our property.

By way of background, the project is a long-term environmental initiative to create a long-life artificial bat roost intended to support habitat development for the endangered Ghost Bat. Its permanent site will be in Marble Bar (Pilbara) while our Wandering property is being used solely as a temporary fabrication and pre-assembly location.

Currently, the structure have now been manufactured both onsite and offsite, and the remaining pre-assembly stage is required solely to verify structural integrity prior to transportation to its permanent location at Pilbara. Nevertheless, we have voluntarily paused in good faith our efforts pending the Shire's guidance on this matter.

In support of this request, and to assist the Shire's assessment, we also provide the additional information set out in **Annexure A**, which we respectfully submit for the Shire's reference and consideration.

#### PLANNING EXEMPTION GROUNDS

##### 1. Temporary Nature of the Activity

The activity involves no permanent construction or foundations of any kind. The prefabricated components rest on the ground only temporarily and are not fixed, anchored, or attached in any way that alters the land. All elements are fully removable, leaving no residual impact.

##### 2. Non-Commercial, Private Use

The project is entirely non-commercial. It involves no business activity, trading, income generation, or public traffic. It is a private, hobby-based environmental initiative, consistent with ordinary lawful use of private rural land.

### 3. No Impact on Amenity or Surroundings

The project does not create noise, vibration, emissions, odor, or traffic beyond normal rural activity. Visual impact is temporary and confined to our private property, with no public access or exposure.

### 4. Environmental and Public-Interest Value

The project supports conservation of the endangered Ghost Bat and aligns with environmental stewardship objectives. It presents no risk or burden to the locality.

### 5. Significant Investment and Good-Faith Engagement

We have invested substantial time, resources, and personal effort into this project. We paused all work pending the determination of the Shire on our request, demonstrating our willingness to cooperate fully and our full deference to your guidance on the matter. We believe that we have exercised reasonable care and undertaken all necessary precautions, and we emphasise that all activity remains fully subject to the Shire's guidance, direction, and any conditions it may consider appropriate.

### REQUEST FOR DETERMINATION

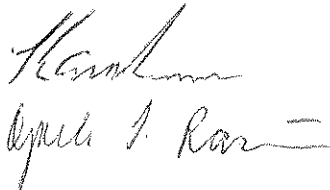

We respectfully request that the Shire:

- a) Confirm that the temporary pre-assembly work does not constitute development requiring planning approval; or
- b) Grant a formal planning exemption subject to any reasonable conditions the Shire considers appropriate.

We remain willing to comply with any requirements the Shire may impose and appreciate its ongoing support to the community.

Yours sincerely,

Kenneth & Grete Rasmussen

Shire Query	Response
<p><b>1. When did the project commence (estimate)?</b></p>	<p>The project has been in development for <b>more than five years</b>, but was mostly limited to design concept development, formwork engineering, lifespan and load simulations. Actual modelling works commenced at the Wandering site <b>around August 2025</b>, with significant curing periods required between pours and thus were held in long intervals of several weeks per actual work.</p>
<p><b>2. When is the project scheduled to be completed (period of approval sought)?</b></p>	<p>Remaining work includes: (a) aligning and levelling the base blocks (see attached), (b) temporarily lifting remaining blocks into place as a <b>proof-of-concept</b> assembly, and (c) immediate dismantling, followed by loading onto a truck for transport to the Pilbara.</p> <p>Due to the onset of the wet season and curing delays, we respectfully request <b>12 months from the date of the first pour (August 2025)</b>. Notably, actual work on site is limited to <b>approximately 10 days total</b>, undertaken <b>once per week</b>, for <b>around 1 hour per event</b>, always within business hours.</p>
<p><b>3. Have required setbacks been maintained?</b></p>	<p>Yes. All blocks are positioned <b>more than 10 metres</b> from the neighbouring fence line and <b>approximately 20 metres</b> from the front fence. The location was deliberately chosen to ensure adequate buffer zones and to reduce any potential impact.</p>
<p><b>4. Have you undertaken noise or dust monitoring?</b></p>	<p>No formal monitoring has been undertaken due to the minimal nature of works. Onsite activity has consistently been short and infrequent. Noise sources have included only cement trucks, vibration equipment for settling concrete, and a small tractor-typical temporary rural equipment. Dust emissions have remained within normal seasonal levels. By comparison, passing vehicles generate more dust than the activity onsite.</p>
<p><b>5. Do bats occupy the enclosure?</b></p>	<p>No. The temporary assembly phase is solely to confirm constructability and to document assembly procedures for the permanent installation in the Pilbara. No entrance will be created during this stage, ensuring no wildlife access is possible.</p>

<b>Voting Requirements:</b>	<b>Absolute Majority</b>
<b>Previous Reference:</b>	<b>Item 12.1 Ordinary Council Meeting 15 August 2024 Item 12.1 Ordinary Council Meeting 17 April 2025</b>

#### **Summary of Report:**

This report recommends amendments to the Council's adopted Terms of Reference (ToR) for the Audit, Risk and Improvement Committee. The amendments are required to comply with changes to the Local Government Act 1995, particularly Sections 7.1A, 7.1B, and Clause 69 of Schedule 9.3, Division 7, as well as the Local Government Amendment Regulations 2024. The new requirements include appointing independent Presiding and Deputy Presiding Members through an open advertising process. Compliance must be achieved by 30 June 2026.

#### **Background:**

The Local Government Act 1995 and the Local Government Amendment Regulations 2024 have introduced changes to enhance governance, transparency, and accountability in local government operations. Key changes include the mandatory establishment of an ARIC and the requirement for independent leadership of the committee. These changes align with sector-wide improvements and aim to strengthen oversight of risk management, internal controls, financial reporting, and organisational improvement.

Council has previously updated the naming of its committee to the Audit, Risk and Improvement Committee and adopted ToR that include provisions for appointing an independent Presiding Member and Deputy Presiding Member. The current update includes an increase to the independent member sitting fees to increase the Shire's ability to attract and retain suitably qualified individuals to these two roles as the previously allocated amount failed to achieve this. The new fees are within the recommended band determined by the Salaries and Allowances Tribunal for independent committee members.

An advertisement has been prepared (attached) seeking expressions of interest for independent committee members, aiming to attract suitably qualified individuals to provide valuable expertise and perspectives to support the Shire's governance and strategic financial oversight.

It is proposed that the positions be advertised in accordance with the principals of the attached, commencing late April 2026 and concluding late May 2026, on the Shire's website, Facebook page, Public Noticeboards and in the May edition of the Wandering Echo.

<b>TITLE:</b>	Audit, Risk and Improvement Committee Terms of Reference 2025
<b>OBJECTIVE:</b>	To describe the functions and membership of the Audit Committee

**POLICY STATEMENT**

**Introduction:**

The Audit, Risk and Improvement Committee (ARIC) is an advisory group formally appointed by the Council that is responsible to the Council. The Committee does not have executive powers or authority to implement actions in areas over which management has responsibility and does not have any financial responsibility. The Committee does not have any management functions and is therefore independent of management.

**Appointing Legislation:**

The Audit, Risk and Improvement Committee (ARIC) is established under section 7.1A of the *Local Government Act 1995*.

**Delegated Authority:**

The ARIC has no delegated power and has no authority to implement its recommendations without approval from Council.

**Purpose:**

The purpose of the Terms of Reference is to;

1. Facilitate the operation of the ARIC;
2. Support the Council in fulfilling its responsibilities in relation to:
  - a. risk management systems
  - b. internal control structure
  - c. financial reporting
  - d. compliance with laws and regulations
  - e. internal and external audit functions

**Objectives:**

The primary objective of the ARIC is to accept responsibility for the annual external audit and liaise with the local government’s auditor so that Council can be satisfied with the performance of the local government in managing its financial affairs. The ARIC will also oversee critical areas including risk management and governance.

Reports from the ARIC will assist Council in discharging its legislative responsibilities of controlling the local government’s affairs, determining the local government’s policies and overseeing the allocation of the local government’s finances and resources. The ARIC will ensure openness in the local government’s financial

reporting and will liaise with the CEO to ensure the effective and efficient management of the local government's financial accounting systems and compliance with legislation.

More specifically, the objectives of the ARIC are to oversee:

1. The integrity of external financial reporting, including accounting policies.
2. The scope of work, objectivity, performance and independence of the external auditor.
3. The establishment, effectiveness and maintenance of controls and systems to safeguard the Shire's financial and physical assets.
4. The framework and systems that are designed to ensure the Shire complies with relevant statutory and regulatory requirements.
5. The framework for recognising risks arising from the Shire's operations and consider the adequacy of measures taken to manage those risks.
6. The framework and systems which protect the Council against fraud and irregularities.

The ARIC must also add to the credibility of Council by promoting ethical standards through its work.

Members of the Committee are expected to:

- understand the legal and regulatory obligations of the Council for governing the entity;
- understand the governance arrangements that support achievement of the Shire's strategies and objectives;
- exercise due care, diligence and skill when performing their duties;
- adhere to the Shire's Code of Conduct for Council Members, Committee Members and Candidates;
- be aware of contemporary and relevant issues impacting the public sector; and
- only use information provided to the Committee to carry out their responsibilities, unless expressly agreed by Council.

#### **Powers of the ARIC:**

The ARIC is a formally appointed committee of Council and is responsible to that body. The ARIC does not have executive powers or authority to implement actions in areas over which the CEO has legislative responsibility and does not have any delegated financial responsibility. The ARIC does not have any management functions and cannot involve itself in management processes or procedures.

The ARIC is to report to Council and provide appropriate advice and recommendations on matters relevant to its term of reference in order to facilitate informed decision-making by Council in relation to the legislative functions and duties of the local government that have not been delegated to the CEO.

The ARIC has the authority of Council to:

- Review the external auditor's annual audit plans along with the outcomes / results of all audits undertaken;
- Review internal audit plans along with the outcomes / results of all audits undertaken;
- Formally meet with the Shire's appointed external auditor as necessary;
- Ensure that any matters raised by external audit that require action are actioned; and
- Advise Council on any or all of the above as deemed necessary.

#### **Membership:**

The membership criteria of the ARIC is set out below.

- The committee shall consist of three (3) elected members, two of which to be the Shire President and Deputy Shire President, and two independent members who will act as the Presiding Member and Deputy Presiding Member. All members shall have full voting rights.

\*The first independent Presiding Member and Deputy Presiding Member will be appointed after the adoption of these Terms of Reference, and the advertising process is completed with a term concluding October 2025, after the Ordinary Council Elections.
- The quorum at any meeting shall be 3 voting members, including at least one independent member.
- Committee members are required to abide by the *Local Government Act 1995* and Code of Conduct in observing the requirements of declaring any proximity, financial or impartiality interests that relate to any matter to be considered at each meeting.

### **Meetings:**

The ARIC shall meet at least twice each year or more regularly as required at the discretion of the Presiding Member of the committee, the Shire President or the CEO, with all members expected to attend each meeting in person. Elected Members, who are not part of the committee are invited to observe meetings, however they are not entitled to participate in the meeting. The CEO, or their delegate, is to attend all meetings to provide advice and guidance to the committee, however the CEO and employees are not members of the committee. The CEO will invite members of management, internal and external auditors or others to attend meetings as observers and to provide pertinent information, as necessary.

The Presiding Member will preside at all meetings. In their absence, the Deputy Presiding Member will assume the Presiding Member role for that meeting.

Each member of the Committee at a meeting will have one vote. The Presiding Member will have a casting vote and simple majority will prevail. A committee recommendation does not have effect unless it has been made by simple majority. A simple majority is the agreement of not less than half of the members present at the meeting.

Meeting agendas will be prepared and provided at least three days in advance to members, along with appropriate briefing materials. Minutes will be taken at each meeting and presented to the subsequent meeting for confirmation. Reports and recommendations of each committee meeting shall be presented to the next appropriate ordinary council meeting, which may not be meetings held on the same day.

### 1. Objectives

The Council’s objectives in establishing this Policy are to:

- a. Ensure there is an understanding of the obligations of users that are provided privileged access to information systems operated by the Shire of Wandering;
- b. Ensure there is an awareness of the ownership of any intellectual property that resides on Shire information systems;
- c. Ensure best practice policies and procedures are followed in relation to the operation of all information systems;
- d. Ensure compliance with the *State Records Act 2000* and associated records management practices and procedures of the Shire.

This Policy encompasses the following five (5) principles of information security:

1. Confidentiality  
Ensuring that information is only accessible to those with authorised access. For example, this could mean using a strong password on your computer or mobile device, shredding sensitive documents, and locking filing cabinets.
2. Integrity  
Safeguarding the accuracy and completeness of information and processing methods.
3. Availability  
Ensuring that users have access to information when they require it, ie. ensuring that no person or event is able to block legitimate or timely access to information.
4. Compliance  
Ensuring that the Shire meets all legislative obligations.
5. Responsibility  
Ensuring that appropriate controls are in place so that users have access to accurate, relevant and timely information, but that users of the Shire’s ICT resources do not adversely affect other users or other systems.

All Shire records, files, and communications are considered a corporate asset, regardless of physical format, storage location, or date created and are essential to the business of the Shire.

All records will be registered in the Shire's corporate Records Management System inclusive of content and context. These records must be complete and accurate.

The Council is committed to developing and implementing information management practices which support the Shire's business and legislative requirements.

Ownership and proprietary interest of records and information created or received during the course of business is vested in the Shire.

The Shire will endeavour to retain and dispose of records and information in accordance with the retention and disposal schedules approved by the State Records Commission.

The Council is committed to capturing and preserving records and information of significant historical or cultural value to the Shire and the State.

## 2. Acceptable Use

The use of Shire ICT systems and content for illegal, offensive, or other inappropriate activities, is prohibited.

This includes but is not limited to:

- Interfering with the intended use of resources. Such activities may include the downloading very large amounts of data affecting the performance of internet bandwidth for all other users;
- Seeking to or gaining unauthorised access to any resource;
- Using or knowingly allowing another to use any system to defraud or to obtain money, property, services, or other things of value by false representations;
- Breaching the privacy of individuals without authorisation;
- Conducting a business or activity for commercial purposes or financial gain, including publishing material which contains any advertising or any solicitation of other network users or discussion group or list members to use goods or services;
- Publishing information which violates or infringes upon the rights of any other person or group;
- Online gambling activities or political campaigning;
- Engaging in the use of social media tools for personal use during business hours; or
- Misrepresentation of yourself or the Shire of Wandering.

## 3. User Accounts

Effective access controls and reporting require that all users and their actions be uniquely identified.

All network user-ids will be password protected. Passwords must be kept secret and not shared. Users are accountable for all activity conducted under their allocated user account(s).

Generic and/or shared network user-ids may also be necessary in specific situations. Creation and use of all such network user-ids must be approved by the CEO.

You should observe the following with respect to your network user-id and password:

- Never divulge your password to another person, including system administrators, support staff, family and/or friends;
- Never write your password down in a conspicuous location;
- Take care that you are not being watched when you type it in;
- Change your password immediately if you suspect that it has been compromised;
- Never allow another person to operate a computer session signed on with your network user-id and password without your supervision;
- You must never attempt to sign-on as another person, or use a session signed-on with another person's network user-id and password; and
- Your network user-id will be locked after three invalid login attempts to mitigate malicious access. You must contact the ICT Contractor to unlock the account.

#### 4. Password Management

Passwords are a common way to verify an identity. It is important that the password for your network user-id cannot be easily guessed.

#### 5. Internet Use

The Internet is a shared resource; and as such users must be considerate of others. Using the Internet in a manner that may cause offence or bring the Shire into disrepute is prohibited and may result in disciplinary proceedings.

Offensive material includes but is not limited to:

- Obscene or harassing language or images;
- Negative racial, ethnic, sexual, erotic or gender specific comments or images; and
- Other comments or images that would offend someone on the basis of their religious or political beliefs, sexual orientation, physical features, nationality or age.

The Shire permits its user base to access and use the internet to carry out their duties, to contribute to the achievement of Shire business objectives and for staff development.

The Shire has the right to implement systems to automatically block access to certain sites that are considered to be either inappropriate or are being abused.

- You must not deny nor disrupt access to resources required by other staff in the performance of their duties. Such activity may include but is not limited to streaming media, excessive downloads, excessive non-business use and/or inappropriate sites;
- You must take all reasonable care when downloading, accessing or executing files on or from the Internet services. The consequences of introducing viruses or any other harmful software through the Internet environment may be serious and of great expense to the organisation;
- The ICT contractor should be contacted immediately if there is suspicion that a file, communication or information may contain a virus;
- You should be particularly careful of the potential for disclosing information on the internet. The capture of information containing workstation details, browser settings, network and personal information is a significant risk on the Internet and contributes to network compromise and 'phishing' (tricks used to fool the user into surrendering private information that will be used for identity theft);
- You should not reuse an existing network user-id or password associated with the Shire on any public web sites. Since public web sites are outside the control of the Shire, there can be no assumption as to the security of the site. Using an important network user-id or password on such a site must be avoided;
- All software products must be authorised and licensed before being installed on any equipment; and
- You are reminded that copyright restrictions often apply to all Internet files including web page content, images and documents.

#### 6. Email

Email is an important business tool but is also subject to misuse. The organisation is committed to the appropriate use of this tool and expects all users to comply with acceptable usage directives.

It is important to note that all email messages that are created, sent or received using the email service remain property of the Shire.

- The Shire email system is to be used explicitly for the conduct of Shire related business. ie. no use for personal communications is permitted.
- You should not forward unsolicited email (spam) or items such as chain letters.
- Emails are business records and should be filed into the records management system in the same way as any other business record and deleted from your Inbox. Any filing questions are to be referred to the Customer Service Coordinator.
- Elected Members are to send a copy of pertinent Council-related email records, as defined by the *State Records Act 2000*, to [csc@wandering.wa.gov.au](mailto:csc@wandering.wa.gov.au) where they will be registered appropriately.

- Consider that emails are not necessarily delivered or read by the recipient immediately, so other forms of communication should be considered where the matter is urgent.
- You should take reasonable care when opening attachments received with emails. If there is a suspicion that a file may be infected by a virus, you should contact the ICT Contractor immediately.
- Judgement should be used when forwarding emails that you have received to ensure you are not breaching the confidence of the sender.
- Emails should be drafted in a professional manner. Adhere to acceptable standards of email etiquette; i.e. All capitals indicates 'yelling'. Address your recipient by name. i.e., Hi xxxx.
- Email messages must not contain content considered to be offensive. If you receive material that you believe may be offensive you should respond to the sender professionally conveying your objection.
- You should always use subject headings to help identify relevance of content for recipients.
- Email should not be considered a file transfer tool. Consider use of accepted file transfer tools such as 'Dropbox' if sending large files to external bodies.
- A size quota may apply to your email account. Size violations will result in the inability to send email, until your inbox, sent items and subfolders, are reduced.

#### 7. Disclaimer

The following disclaimer should be added to all email sent from an officer or elected member in regard to the corporate email system:

#### 8. Shires Email Addresses

The Shire's primary public e-mail address is [reception@wandering.wa.gov.au](mailto:reception@wandering.wa.gov.au). Emails to this address will be received by the Customer Service officer who will register and distribute the email to the appropriate officer.

#### 9. Malicious Software

Malicious software is a term used to describe programs that can maliciously attack and affect computer files and cause some unwanted actions whenever those files are used. Viruses and Malware are examples of this.

The most common way for malicious software to be introduced to a system is via a file accessed from an external source, such as from a memory stick, e-mail attachment or by downloading a file from the Internet.

It is therefore important for all users to be careful that they do not introduce malicious software, and to be diligent in detecting unusual events and reporting them immediately to the ICT Contractor.

- If you encounter a message indicating that a software virus has been detected but not cleaned you must advise the ICT Contractor who will act to prevent any further distribution of the virus;
- Do not install browser plug-ins such as toolbar add-ins;
- Do not open any files attached to an email message from an unknown, suspicious or untrustworthy source;
- Do not open any files attached to an email message if the subject line is questionable or unexpected;
- If you receive an untrusted attachment, delete the file;

- Delete chain emails and junk email. Do not forward or reply to any to them. These types of email are considered spam, which is unsolicited and intrusive;
- You must not download files from suspicious web sites.

#### 10. Computer Software and Licensing

Software that does not have a valid licensing agreement is not to be used on any Shire maintained equipment.

All software must be used in accordance with specified license or copyright terms and conditions.

Proprietary software licensed for use must only be loaded onto owned equipment. Copies must not be taken for use on other equipment, including privately owned equipment, unless explicitly permitted by the licensing agreement and /or authorised by the CEO.

The download and installation of software to Shire owned equipment is only to be performed by the ICT Contractor.

- You must comply with all formal licensing requirements with regards to all software;
- You must inform the CEO or Customer Service Coordinator of any software that you no longer require, so that it can be removed in a timely manner and reallocated if applicable;
- You must not install or use any unauthorised software designed to compromise or bypass any security controls. Use of such software is strictly prohibited and will be considered a significant breach.

#### 11. Mobile Devices

Due to the portable nature of notebook computers and other mobile devices, there is a requirement to maintain physical and data security.

- You must take special care to ensure that the Shire's information is not compromised through use of mobile devices in a public place. You should attempt to ensure that screens displaying sensitive or critical information cannot be seen by unauthorised persons;
- Never leave notebook computers or other mobile devices unattended in a public place, in an unlocked house, or office. Where possible, they should be physically locked away.
- Do not modify settings for password validation on mobile equipment. If authentication (identity verification) is enabled, do not disable it.

#### 12. Physical Security and Protection

Physical and environmental issues affect all aspects of information security. These issues range from unauthorised physical access and exposure to environmental factors such as fire and flooding.

Physical security must be provided for all information regardless of the technology and including telecommunications equipment or facilities to ensure that associated assets are adequately protected against loss, damage or other risk.

- Ensure that office sites are appropriately physically secured;
- Never allow external parties to access Shire premises network access points or wireless network system;
- Shire property must be adequately maintained cared for;
- Supplied protective covers must not be removed;
- Do not leave sensitive electronic equipment in hot vehicles.

#### 13. Remote Access and Remote Working

All remote access to Shire information assets must be approved by the CEO.

- Use of a remote access facility to access systems will only be granted if it is consistent with information security standards;
- You will be held accountable for all actions performed under your network user-id and password;
- To facilitate this, you must never leave a remote access session unattended, even if you are not currently signed-on to an application or other information system;

- Always disconnect a remote access session immediately after you have signed-off an application or other system;
- Never allow another person to operate a remote access session that you have established.

#### 14. BYOD

The Shire supports the flexibility afforded by a Bring Your Own Device scheme.

If and when approved by the CEO, a user's personal device may be used to connect to Shire email and other selected information systems.

#### 15. Incident Response and Issue Resolution

It is important that all suspicious events which involve Shire information assets are:

- Reported;
- Investigated;
- Responded to in a timely manner; and
- Evaluated for business impact.

Routine Help Desk requests can be logged via email, whereby the ICT Contractor will attend to resolution as soon as possible. Sending an email to support@focusnetworks.com.au noting the nature of the issue will automatically create a helpdesk request and assign it to an ICT staff member to action. You will receive a return confirmation email.

Any irregular or suspicious activity should be reported to the ICT Contractor.
