

Notice of Meeting

22 Watts Street Wandering WA 6308
Telephone: (08) 68281800
reception@wandering.wa.gov.au

Dear Elected Member

A Special Council meeting of the Shire of Wandering will be held at 3pm on Thursday 5 September 2024 in the Council Chambers. This meeting is for:

- Council to accept the tender for building works for the Wandering Community Centre; and
- Council to accept the variation to the tender for building works for the Wandering Community Centre

Schedule

3pm Special Council Meeting

Alan Hart
Chief Executive Officer
5 September 2024

DISCLAIMER

No responsibility whatsoever is implied or accepted by the Shire of Wandering for any act, omission or statement or intimation occurring during Council or Committee meetings or during formal/informal conversations with staff. The Shire of Wandering disclaims any liability for any loss whatsoever and howsoever caused arising out of reliance by any person or legal entity on any such act, omission or statement or intimation occurring during Council or Committee meetings or discussions. Any person or legal entity that act or fails to act in reliance upon any statement does so at the person's or legal entity's own risk.

In particular and without derogating in any way from the broad disclaimer above, in any discussion regarding any planning application or application for a licence, any statement or limitation of approval made by a member or officer of the Shire of Wandering during the course of any meeting is not intended to be and is not taken as notice of approval from the Shire of Wandering. The Shire of Wandering warns that anyone who has an application lodged with the Shire of Wandering must obtain and only should rely on WRITTEN CONFIRMATION of the outcome of the application, and any conditions attaching to the decision made by the Shire of Wandering in respect of the application.

AGENDA

Shire of Wandering
Special Council Meeting
5 September 2024

OUR VISION

Wandering is a community of responsible, resilient and adaptable residents thriving in our scenic, economically diverse environment.

DISCLAIMER

INFORMATION FOR THE PUBLIC ATTENDING COUNCIL MEETINGS

Please Note:

The recommendations contained in this agenda are officers' recommendations only and should not be acted upon until Council has resolved to adopt those recommendations.

The resolutions of Council should be confirmed by perusing the minutes of the Council meeting at which these recommendations were considered.

Members of the public should also note that they act at their own risk if they enact any resolution prior to receiving official written notification of Council's decision.

Meeting Procedures:

1. All Council meetings are open to the public, except for matter raised by Council under "confidential items".
2. Members of the public may ask a question at an ordinary Council Meeting under "public question time".
3. Members of the public who are unfamiliar with meeting procedures are invited to seek advice at the meeting. If unsure about proceeding, just raise your hand when the presiding member announces public question time.
4. All other arrangements are in accordance with the Council's standing orders, policies and decision of the Shire of Wandering.

Council Meeting Information:

Your Council generally handles all business at Ordinary or Special Council Meetings.

From time to time Council may form a Committee to examine subjects and then report back to Council.

Generally all meetings are open to the public; however, from time to time Council will be required to deal with personal, legal and other sensitive matters under "confidential items". On those occasions Council will generally close that part of the meeting to the public. Every endeavour will be made to do this as the last item of business of the meeting.

Public Question Time. It is a requirement of the *Local Government Act 1995* to allow at least fifteen (15) minutes for public question time following the opening and announcements at the beginning of the meeting. Should there be a series of questions the period can be extended at the discretion of the presiding member.

Written notice of each question should be given to the Chief Executive Officer fifteen (15) minutes prior to the commencement of the meeting. A summary of each question and the response is included in the meeting minutes.

When a question is not able to be answered at the Council Meeting a written answer will be provided after the necessary research has been carried out. Council staff will endeavour to provide the answers prior to the next ordinary meeting of Council.

Councillors may from time to time have a financial interest in a matter before Council. Councillors must declare an interest and the extent of the interest in the matter on the Agenda. However, the Councillor can request the meeting to declare the matter trivial, insignificant or in common with a significant number of electors or ratepayers. The Councillor must leave the meeting whilst the matter is discussed and cannot vote unless those present agree as above.

Members of staff, who have delegated authority from Council to act on certain matters, may from time to time have a financial interest in a matter on the Agenda. The member of staff must declare that interest and generally the presiding member of the meeting will advise the Officer if he/she is to leave the meeting.

Agendas, including an Information Bulletin, are delivered to Councillors within the requirements of the *Local Government Act 1995*, i.e. seventy-two (72) hours prior to the advertised commencement of the meeting. Whilst late items are generally not considered there is provision on the Agenda for items of an urgent nature to be considered.

Should an elector wish to have a matter placed on the Agenda the relevant information should be forwarded to the Chief Executive Officer in time to allow the matter to be fully researched by a Shire Officer. An Agenda item, including a recommendation, will then be submitted to Council for consideration. The Agenda closes the Friday week prior to the Council Meeting (i.e. ten (10) days prior to the meeting).

The Information Bulletin produced as part of the Agenda includes items of interest and information, which does not require a decision of Council.

Agendas for Ordinary Meetings are available at the Shire of Wandering Office and on the Shire website seventy-two (72) hours prior to the meeting and the public are invited to view a copy at the Shire Office.

Agenda items submitted to Council will include a recommendation for Council consideration. Electors should not interpret and/or act on the recommendations until after they have been considered by Council. Please note the Disclaimer in the Agenda (page 2).

Public Inspection of Unconfirmed Minutes (Regulation 13).

A copy of the unconfirmed Minutes of Ordinary and Special Meetings will be available for public inspection from the Shire of Wandering Office and the Shire of Wandering website within ten (10) working days after the Meeting.

Alan Hart
Chief Executive Officer

10.1 Request for Tender - Wandering Community Centre Kitchen and Storeroom Upgrade	
File Reference:	11.111.11101
Location:	Down Street Wandering
Applicant:	N/A
Author:	Karl Mickle, Operations Manager
Authorising Officer	Alan Hart, Chief Executive Officer
Date:	20 August 2024
Disclosure of Interest:	Nil
Attachments:	Tender from Stallion Homes
Previous Reference:	Wandering Community Centre Upgrade Committee Meeting 12 June 2024 – Item 4.2

Summary:

For the committee to recommend to Council to accept the Tender for the Building works to refurbish the Kitchen and Storeroom.

Background:

The Wandering Community Centre is the hub for the Wandering community and has been identified as a building that needs to be upgraded to ensure that community expectations of a modern facility are addressed, and the building is fit for purpose going into the future.

Comment:

Request for Quotations for the upgrade of the Kitchen and Storeroom at the Community Centre were called in June 2024, with just one quotation received from Stallion Homes. The Quote was \$399,940 (excluding GST). This included all electrical works.

Under Section 3.57 of the Local Government Act requires that where the value of the works is more than \$250,000 Tenders are to be publicly invited before the Local Government enters into a contract.

The Shire called for quotations as the estimated value of the works was expected to be less than \$250,000.

As the quotation was for more than this amount, tender will need to be called.

A request for the tender at the Wandering Community Kitchen and Storeroom Upgrades was called and closed on the 5th of August 2024 at 4pm, with just one Tender received from Stallion Homes.

The Tender was assessed by the project manager, and he has made the following comments

“The quotation from Stallion Homes appears to have covered all bases, with the following particularly noted:

- The price reflects an up-rated main beam 'B1' from 200UB to 250UB. Engineering approval is sought to confirm.*
- The price reflects a 'grid-type' ceiling instead of a suspended plasterboard ceiling. I had not picked up on this earlier on the design drawings, assuming a grid-type ceiling would be required for accessibility into the ceiling void in the future. A grid-type ceiling must be installed, and it is quite probably cheaper than the suspended plasterboard type.*
- There is no allowance in the electrical price for exit and emergency lighting. It is presumed that this will be required to satisfy present public safety requirements. For further consideration.*
- It is noted that the existing switchboard is probably sub-standard and requires upgrading. An upgrade may have a concessional saving on the installation of a sub-main board. For further consideration.*

Pricewise, we have:

- Preliminaries: \$17,020
- Demolition: \$30,640
- Construction including plumbing, gas and drainage and electrical works: \$337,280
- Contingency: \$5,000
- Total lump sum price (ex GST) \$399,940

to a GST-excluded total of \$399,940. I originally expected that the value of the works would have been in the order of \$300K, so the price is not too far off the mark. At the end of the day, we will have an asset that Wandering can be proud of well into the future.”

Consultation:

Not applicable

Statutory Environment:

Section 3.57 of the Local Government Act (1985) as amended.

Policy Implications:

Policy 12- Purchasing and Tenders

Financial Implications:

The total cost of works is approximately \$404,000. Funding from the Local Community infrastructure fund totals \$182,000 leaving a shortfall of \$222,000. It is proposed that the balance be funded from savings from the tendered works of the industrial land development (\$100,000) and from the Shire’s land and Building Reserve (\$122,000).

The Land and Building Reserve has a balance of \$256,533. The use of these funds for this purpose is an appropriate use as it is consistent with the purpose of the reserve which is *“For the purchase of land and buildings, and major repairs/upgrading of existing buildings.”*

If Council approve this expenditure, a budget adjustment to reflect the above will be included in the Annual Budget Review.

Strategic Implications:

PROVIDE STRONG LEADERSHIP

Our Goals	Our Strategies
A well informed Community	Foster Opportunities for connectivity between Council and the Community
We plan for the future and are strategically focused	Ensure accountable, ethical and best practice governance

Sustainability Implications:

- Environmental: There are no known significant environmental considerations.
- Economic: There are no known significant economic considerations.
- Social: There are no known significant social considerations

Risk Implications:

Nil

Voting Requirements:

Simple Majority

030824 Moved: Cr Gillian Hansen Seconded: Cr Max Watts

Recommendation and Committee Decision:

That the committee recommend to Council to:

- 1. Accept the Tender from Stallion Building Pty Ltd for the amount of \$399,940 ex GST**
- 2. To ensure that construction cannot commence until after the 14th September 2024.**

Part 3 COMPLETE AND RETURN THIS PART

3.2 Selection Criteria

3.2.1 Compliance Criteria

Please select with a “Yes” or “No” whether you have complied with the following compliance criteria:

Description of Compliance Criteria	
a) Respondents are to provide acknowledgment that your organisation has submitted in accordance with the Conditions of this RFQ including completion of the Offer Form and provision of your pricing submitted in the format required by the Principal.	Yes
b) Respondents are to provide their <ul style="list-style-type: none"> • Builders Registration Certificate & • Certificate of Currency-Public Liability Insurance 	Yes
c) Compliance with the Specification contained in the Request.	Yes
d) Compliance with the Completion Date.	Yes
With new start date of 17SEP24 after town anniversary event, new PC date will be 14MAY25.	
e) Risk Assessment	
Respondents must address the following information in an attachment and label it “Risk Assessment”:	
i) An outline of your organisational structure inclusive of any branches and number of personnel.	Yes
ii) If companies are involved, attach their current ASC company extracts search including latest annual return.	Yes
iii) Provide the organisations directors/company owners and any other positions held with other organisations.	Yes
iv) Provide a summary of the number of years your organisation has been in business.	Yes
v) Attach details of your referees. You should give examples of work provided for your referees where possible.	Yes
vi) Are you acting as an agent for another party? If Yes, attach details (including name and address) of your principal.	No
vii) Are you acting as a trustee of a trust? If Yes, give the name of the trust and include a copy of the trust deed (and any related documents); and if there is no trust deed, provide the names and addresses of beneficiaries.	No
viii) Do you intend to subcontract any of the Requirements? If Yes provide details of the subcontractor(s) including; the name, address and the number of people employed; and the Requirements that will be subcontracted.	Yes
ix) Will any actual or potential conflict of interest in the performance of your obligations under the Contract exist if you are awarded the Contract, or are any such conflicts of interest likely to arise during the Contract? If Yes, please supply in an attachment details of any actual or potential conflict of interest and the way in which any conflict will be dealt with.	No

Part 3 COMPLETE AND RETURN THIS PART**Description of Compliance Criteria**

x)	Are you presently able to pay all your debts in full as and when they fall due?	Yes
xi)	Are you currently engaged in litigation as a result of which you may be liable for \$50,000 or more? If Yes please provide details.	No
xii)	In order to demonstrate your financial ability to undertake this contract, include a profit and loss statement and the latest financial return for you and each of the other proposed contracting entities, together with a list of financial referees from your bank and/or accountant.	Yes
The insurance requirements for this Request for Quotation are stipulated in Part 3 of the RFQ. Respondents are to supply evidence of their insurance coverage including, insurer, expiry date, value and type of insurance. If a Respondent holds "umbrella Insurance", please ensure a breakdown of the required insurances are provided. A copy of the Certificate of Currency is to be provided to the Principal within 14 days of acceptance.		Yes

Part 3 COMPLETE AND RETURN THIS PART

3.2.2 Qualitative Criteria

Before responding to the following Qualitative Criteria, Respondents must note the following:

- a) All information relevant to your answers to each criterion are to be contained within your Response;
- b) Respondents are to assume that the Evaluation Panel has no previous knowledge of your organisation, its activities or experience;
- c) Respondents are to provide full details for any claims, statements or examples used to address the Qualitative Criteria; and
- d) Respondents are to address each issue outlined within a Qualitative Criterion.

A. Relevant Experience Describe your experience in completing/supplying similar Requirements. Respondents must, as a minimum, address the following information in an attachment and label it "Relevant Experience": (Below are some suggested criteria only. These should be reviewed for relevance to the Goods and/or Services being sought)	Weighting 25%	
a) Provide details of similar work. b) Provide scope of the Respondent's involvement including details of outcomes. c) Demonstrate sound judgement and discretion. d) Provide details of issues that arose during the project and how these were managed. e) Demonstrate competency and proven track record of achieving outcomes.	"Relevant Experience"	Tick if attached <input checked="" type="checkbox"/>
B. Key Personnel Skills and Experience Respondents should provide as a minimum information of proposed personnel to be allocated to this project, such as: (Below are some suggested criteria only. These should be reviewed for relevance to the Goods and/or Services being sought)	Weighting 25%	
a) Their role in the performance of the Contract. b) Curriculum vitae. c) Membership to any professional or business associations. d) Qualifications, with particular emphasis on experience of personnel in projects of a similar requirement. e) Any additional information.	"Key Personnel"	Tick if attached <input checked="" type="checkbox"/>
Supply any other relevant details in an attachment and label it "Key Personnel Skills and Experience".		
C. Respondent's Resources Respondents should demonstrate their ability to supply and sustain the necessary: (Below are some suggested criteria only. These should be reviewed for relevance to the Goods and/or Services being sought)	Weighting 25%	
a) Plant, equipment and materials. b) Any contingency measures or backup of resources including personnel (where applicable).	"Respondent's Resources"	Tick if attached <input checked="" type="checkbox"/>
As a minimum, Respondents should provide a current commitment schedule and plant/equipment schedule in an attachment and label it "Respondent's Resources".		

Part 3 COMPLETE AND RETURN THIS PART

D. Demonstrated Understanding Respondents should detail the process they intend to use to achieve the Requirements of the Specification. Areas you may wish to cover include: (Below are some suggested criteria only. These should be reviewed for relevance to the Goods and/or Services being sought)	Weighting 25%	
<i>a)</i> A project schedule/timeline (where applicable). <i>b)</i> The process for the delivery of the Goods/Services. <i>c)</i> Training processes (if required). <i>d)</i> Demonstrated understanding of the Scope of Work.	"Demonstrated Understanding"	Tick if attached <input checked="" type="checkbox"/>
Supply details and provide an outline of your proposed methodology in an attachment labelled "Demonstrated Understanding".		

3.3 Price Information

Respondents must complete the following "Price Schedule". Before completing the Price Schedule, Respondents should ensure they have read this entire Request for Quotation.

3.3.1 Price Basis

Are you prepared to offer a fixed price?	Yes
--	-----

Part 3 COMPLETE AND RETURN THIS PART
--

3.3.2 Price Schedule

Breakdown of Lump Sum

Prices below are ex GST

No	Task	Amount
1.	Preliminaries	\$17,020.00
2.	Demolition	\$30,640.00
3.	Construction <u>Including Electrical</u>	\$347,280.00
4.	Contingencies	\$5,000.00
	Total Lump Sum Price (ex GST)	\$399,940.00
	Total GST Component	\$39,994.00
	Total Lump Sum Price (inc GST)	\$439,934.00

Amount in Words:

Note:

Electrical works are \$43,830 ex GST, included above.

ITEMS THAT ARE NOT CLEARLY DEFINED IN THE DRAWINGS

Items that are required to be considered or undertaken by the Building Contractor, but which perhaps are not clearly defined in the Request for Quotation or the Project Drawings:

1. Existing Supply of Electricity and Water:

The Principal will arrange to have the electricity to the kitchen and storeroom areas disconnected, leaving the main hall, front foyer and toilet amenities connected. There will be an ability to provide some power for the building construction at no cost to the Contractor. **NOTE: We are including electrical works in this price as per discussions with Lou Cowan & Alan Hart**

Temporary disconnection and reconnection of water shall be by the Contractor, having regard to minimising the time for water disconnection at the toilet amenities area.

2. Security of the Site:

While the Contractor is in possession of the Site, the Contractor is liable for the care of the Works, any temporary works, materials, plant and equipment on the Site until the Principal issues a Completion Certificate. **NOTED**

3. Hall Occupancy:

There may be times when the main hall, front foyer, eastern verandah area and toilet amenities are occupied by others. The kitchen, storeroom and rear grassed area will become excluded zones to others not associated with the building project. **NOTED. We request calendar from Shire for planned events**

4. Working Hours:

The Work to be performed under the contract shall be subject to execution within certain restricted working hours and the Contractor shall observe the following working hours:

- Monday to Saturday (except public holidays): 7.00am to 5.00pm.
- Sundays and Public Holidays: 8.00am to 4.00pm with works restricted to low-noise hand tools. **NOTED**

5. Services Installation:

The structural, electrical, plumbing, drainage, gas and similar service installations, equipment and their associated services shall be installed in such order that will ensure they are located as shown on the drawings and that all essential components and parts are accessible for the purposes of future maintenance and replacement. **NOTED**

The Hot Water System is to be relocated to the southern exterior wall, with gas connection to the relocated gas bottles. The Building Contractor shall supply and install a lockable gas bottle cage similar to <https://thesafetycabinetworkhouse.com.au/product/domestic-45kg-gas-bottle-cage-with-shelf/>. **NOTED**

A hand wash basin is to be supplied and installed at the eastern end of the kitchen as shown on the drawings. Two outside garden taps are required to be installed on the southern exterior wall. **NOTED**

6. Coordination of Works:

The Contractor shall be responsible for co-ordination between the various service installers in attaining the required locations and tolerances. This includes the electrical installation which will be undertaken as a separated contract, but which shall be coordinated with the major works. **As per Clause 1, our bid includes separable electrical works**

Stainless Steel Kitchen Benches and other Appliances:

The supply and fit-out of the kitchen with stainless steel benches and appliances will be performed by others, however the provision of plumbing, drainage and gas for these items will be the responsibility of the Building Contractor. New drainage connections will be made to the existing 100mm drain at the southern end of the building, with the old drain line connections suitably capped. **NOTED**

ITEMS THAT ARE NOT CLEARLY DEFINED IN THE DRAWINGS

7. Flashings to End of New Verandah Roof:

The changed roof at the storeroom extension adjacent to the gas bottle position shall be flashed similarly to Details 9 and 10 on Drawing A05. The verandah itself shall be flashed on the ends to hide the exposed purlins. **NOTED**

8. Transport of Materials to and from Site:

All debris, spoil, rubbish or materials shall be suitably contained in vehicles during transportation to or from the Site to prevent spillage.

All Site refuse (including foodstuffs) shall be handled and disposed of appropriately. The Shire will allow disposal at the Wandering Transfer Station without charge to the Building Contractor. Disposal to the Transfer Station shall be coordinated through the Shire of Wandering office. **NOTED**

9. Universal Beam. We believe that the selection of 200UB for the roof may be marginal and as such suggest using a 250UB26, which we have priced in our bid. We request this is approved by your engineer.

10. Grid Ceiling. We do not recommend the installation of a gyprock suspended ceiling as it is structurally unable to handle the weight of someone in the roof space if ever needed for future maintenance. As such, we have priced in a grid type ceiling where panels can be removed from below for safe access.

ELECTRICAL WORKS

We have allowed for the following:

- Submains cable from existing board to new sub-board in store room. New circuit breaker to be installed adjacent to existing board.
- New sub-board in store room.
- Cable and sub-board to be sized to allow for future kitchen AC and sports amenities block as listed.
- Power points as per plans.
- 15A double power points for trailer cool rooms.
- 3ph 32A circuit and isolator for dishwasher (including appliance connection).
- 3ph 10A circuit and isolator for extraction hood (electrical connection by installer).
- 15 LED battens for kitchen and store room.
- 5 LED vandal resistant lights along new veranda.

Notes:

- No allowance for exit and emergency lighting as this is not in the scope, however this will be required as this is a public building.
- Realistically it is not going to be possible to add a circuit large enough for the new sub board to the existing board. See recommendation below.
- We would recommend the existing switchboard in foyer be replaced entirely. This existing (the larger one) board is very old, uses fuses, lacks RCD protection and given the age it possibly has ACM. The lack of RCD's is of particular concern as this is a public building.
- If the existing board is upgraded it will be possible to just have the one board in the building and not have the cost of adding a board in the store room as well.
- We would recommend a site maximum demand be done to ensure existing power supply to the building is sufficient to allow for the current and future proposed additions. Rough calculations suggest this may not be the case.

1.0 INTRODUCTION

1.1 Purpose

This Construction Management Plan has been documented to describe how the Stallion Building Company (the Tenderer) shall implement and conduct its allocated site management responsibilities during the Extension and Upgrades to the Wandering Community Centre (the Project) at Down St, Wandering WA 6308.

1.2 Scope of this Plan

- advises how the project management team will comply with the requirements of the contract relating to design, development of construction;
- defines the project objectives and targets of particular relevance to the design and construction phase;
- describes constraints specific to the construction phase and the project in general;
- describes the process for the identification and control of risks specific to the construction phase;
- details the proposed strategy for the design and construction phase, with particular regard to establishment resourcing, site organisation and construction controls; and
- describes site access points, delivery points, temporary fencing, waste / recycling management and first aid point.

1.3 Propose Works

The proposed works require Extension and Upgrades to the existing Wandering Community Centre consisting of demolition works to kitchen and store room, and construction of new kitchen, bar and extension with verandah.

The Tenderer will develop the preliminary design and complete documentation of the works appropriate for construction purposes, including:

- Advancement for preliminary design to full construction Documentation;
- Provision of design report at each design stage;
- Provision of a detail Specification to NATSPEC format if required;
- Provision of hold points to enable stakeholder review and approval at the Schematic, Developed and Detailed design stages;
- Contractor services for the construction of the facility;
- Contract management services, including provision of monthly progress reports, contract administration and financial management on behalf of the Contractor;
- Commissioning and handover services; and
- Rectification works for the 12 months defect liability period.

1.4 Estimated Construction Time Frame

The Tenderer estimates that the construction period for this project from building licence and receiving all approvals and site possession to practical completion is **34 weeks** contingent on material supply and COVID restrictions.

1.5 Site Location

The site is located at the Wandering Recreation Grounds, Down St, Wandering WA 6308.

1.6 Site Access Points / Temporary Fencing / Contractor Parking Points Etc.

Site access off Down St (Red)

Fencing around site (Blue)

Parking & Delivery Laydown Area (Yellow)

Muster Point (Green)

1.7 Site Restrictions

Overhead Power lines on Down St. Check clearances before commencement.

1.8 Site Security

The site will be secured using appropriate fences and/or hoardings, with access gate. All visitors to the site will be required to report to the office, or contact to the site manager and will be appropriately inducted and registered in a visitor's log book.

2.0 CONSTRUCTION MANAGEMENT

2.1 Expectations

The expectations for the Project are:

- Maximise the Principal's benefit to the community;
- Maximise the quality of the completed Project;
- Maximise the value for money for the Principal;
- Minimise the costs and contractual risks to the Principal;
- Meet the key milestone dates in the Principal's program;
- Ensure the Project design and construction remains within budgetary constraints;
- Fully aware of the intricacies of the Site by attending Site inspection;
- Responsible during the construction phase for the management and administration of all matters of coordination, oversight, daily construction supervision, technical supervision, budgetary control and management of the project schedule and regular progress reports;
- Ensure a safe and tidy worksite to be maintained at all times;
- Ensure all personnel engaged have the required licences and / or qualifications for the work they are performing;
- Maintain a sign-in register of all personnel on the site on a daily basis;
- Ensure there is an appropriately qualified first aid officer on site at all times; and
- Utilise local contractors where possible to undertake work.

Upon commencement, our project team's immediate tasks will be to:

- Confirm the road conditions and weather before delivering materials;
- Undertake a survey of the site (i.e. exact locations of existing trees) and arrange the crane to move the materials if required;
- Obtain all necessary permits and licences and approvals; and
- Arrange for the installation of temporary services if necessary – power, water and sewer to service the site works.

2.2 Approvals

A development approval is assumed to be already completed by the Shire of Wandering and as such is a contract exclusion.

It is proposed that Building Approvals (BA) will be obtained for the site.

2.3 Public / Worker Safety

All site staff and subcontractors will be required to complete a site specific induction before commencing work on site. The induction will cover aspects relating to safety and amenity; including access, emergency evacuation procedures, location of first aid facilities, location of amenities, site hours, material handling, noise and dust policies and environmental management. Works will be quarantined from public use of the hall by locking kitchen door off from main hall, and using hoarding and security fencing. Fenced area will surround the end of the building and extend into the carpark by the bowling green which will be used as lay down area for materials and vehicles.

2.4 COVID-19 Management

All activities will be conducted under any applicable regulations and guidelines in force at the time relating to COVID-19, including (but not limited to) COVID site register, vaccination register, exclusion of non-vaccinated staff/trades/contractors, social distancing, mask/PPE requirements, etc.

3.0 CONSTRUCTION METHODOLOGY

3.1 Site & Earthworks

3.1.1 General

Site preparation and earthworks will be carried out to satisfy the requirements of the BCA and/or NCC as applicable.

3.1.2 Demolition

Existing kitchen requiring demolition works will be conducted as per Proposed Construction Schedule/Gantt Chart. Ablutions are not in scope and existing facilities will be used to provided to the community and construction team.

3.1.3 Excavation

Cut and level where necessary, providing minimum clearance to suit termite system and BCA ventilation requirements. Excavate for all piers, drains, sumps, etc. and back fill as necessary. Excavations for all footings shall have level bottoms, stepped as required and taken to even bearing. Inspection of the trenches may disclose the

necessity for varying the footing design. Any additional cost shall be the responsibility of the Client and recovered in terms of the Contract as a variation.

3.1.4 Contaminated Soil

If applicable, contaminated soil will be removed and stored in a wrapped (tarp top and bottom) area on the rear asphalt carpark area until removed and disposed of in an approved waste facility (ie Red Hill or local tip if licensed for such). It is not anticipated that contaminated soil will be present.

3.1.5 Termite Treatment

Treatment for termites shall be carried out in accordance with the requirements of the NCC.

3.1.6 Filling

All holes formed in course of the Work or in clearing the site of obstructions shall be filled with earth and finished level with the surrounding surface. Where filling below concrete floor slabs is required the Tenderer shall provide and thoroughly compact such fill.

3.1.7 Compaction

Compaction of foundations must conform to BCA and AS 1289 requirements and be tested and certified. When requested by the Lending Authority a copy of the compaction Certificate shall be supplied by the Tenderer.

3.2 Concrete Work

3.2.1 General

All mixing and placing of concrete shall be of a good trade standard. Concrete may be supplied by a premix supply company. All concrete is to be placed and finished immediately it is either site-mixed or delivered. Ready-mixed concrete shall be in accordance with AS 1379.

3.2.2 Design Strength

All concrete shall be manufactured to conform AS 3600 and have a minimum 28 days cylinder strength under test of 20 MPa. The slump of fresh concrete shall not be more than 80mm. Ingredients are to be clean and free from recognised impurities. Where structural elements are indicated on the drawings or otherwise required concrete shall be in accordance with the Engineer's design requirements. Ready-mixed concrete shall also comply with the requirements of AS 1379 for mixing and delivery.

3.2.3 Placing

Concrete shall be placed in accordance with good trade practice and in such a manner as to avoid segregation and shall be adequately compacted by rodding, spading, mechanical vibration or any recognised means.

3.2.4 Finishing

Where shown on drawings granolithic finishes to driveways, paths, carports etc. shall be natural cement finish.

3.2.5 Footings

Footings shall be of types detailed in the BCA and AS 2870 or alternatively in accordance with Structural Engineer's details or statutory authority requirements where provided.

3.2.6 Path

Paths shall be as shown on drawings, generally as specified for concrete floors and 75mm thick laid in sections with a groove every 2700mm maximum. No waterproof membrane or reinforcement shall be required.

3.2.7 Concrete Floors

Concrete shall be as specified for concrete floors and be 100mm in thickness or unless otherwise specified, and poured monolithically, laid in sections with a groove every 2700mm maximum. Where a reinforced garage or office floor is required, the base to be thoroughly compacted.

3.2.8 Road, Building Hardstand & Carpark Works

Not applicable other than for rectification should existing carpark be damaged during works.

3.3 Metalwork & Metal Framing

3.3.1 Aluminium Windows or Doors

Aluminium windows or doors as shown on the drawings shall be supplied and installed and glazed in accordance with manufacturer's instructions and shall be of type and finish stated in the specification.

3.3.2 Metal Door Frames

Where metal door frames are stated in the specification, install in accordance with manufacturer's recommendations.

3.3.3 Electric / Gas Cabinet

To be standard metal cabinet located as shown on drawings and in accordance with supply authority regulations.

3.3.4 Garage Doors

To be installed to opening(s) shown on drawings in accordance with manufacturer's instructions, of the model, type and size indicated in the specification.

3.4 Brick / Block Layer

3.4.1 General

Brickwork only applicable for making good around servery windows and new lintel installation. If not possible to recycle existing bricks then new bricks shall be of even shape and size and of the colour and types indicated in the specification. The tenderer explicitly refuses to guarantee any match discrepancies of colour or texture in new bricks, although all reasonable efforts will be made to provide an acceptable match if required.

3.4.2 Mortar Mixes

Mortar mixes shall comply with AS 4773 and/or AS 3700 including any additives such as colouring.

3.4.3 Laying

Joints in facework shall be 10mm wide subject to acceptable tolerances and brickwork shall be laid using one of the mortars described in 3.4.2 above, other than work which is in contact with the soil (if applicable) when cement mortar shall be used.

3.4.4 Lintels

Masonry openings not otherwise specified shall be suitably supported with lintels of size and finish to conform to BCA and/or statutory authority requirements.

3.5 Carpentry

3.5.1 General

Carry out all carpentry work as shown on the drawings specified herein or as required to effectively complete the Works in accordance with good trade practice. All materials shall be of size and spacings (within normal trade tolerances) and suitable for the design.

3.5.2 Roof and Wall Framing

Roof and wall framing shall be constructed in accordance with the provisions of the Timber Framing Code (AS 1684) and AS 1720.1 Timber Structures – Design Methods.

3.5.3 Stress Grade and Brand

All timber and fabricated elements used as structural members shall be stress graded and branded.

3.5.4 Barge Boards

Provide barge boards, finials and other decorative trim where indicated on the drawings.

3.5.5 Decorative Cladding

Provide Custom Orb Colorbond cladding on 45 degree slope as indicated on the drawings.

3.5.6 Eaves Fascias and Linings

Fascias to be timber or alternatively metal type as shown on the drawings and where linings are indicated to eaves, carport, verandahs, porches etc. they are to be 4.5mm flat fibrous cement sheeting secured to bearers and jointed with suitable PVC trim.

3.5.7 Gables

Where timber framed gables are shown on the drawings, frame up from suitable suds, plates, trimmers and raking plates.

3.5.8 Flashing

Install flashing at external wall openings, roof junctions and the like to conform to BCA requirements.

3.5.9 Fences

Not Applicable.

3.6 Fixing

3.6.1 Flooring

Coved Vinyl Flooring to be installed as stated in the specification shall conform to the requirements of AS 1684.

3.6.2 Doors

To be hung using 100mm steel butt hinges for external doors, and two 100mm butt hinges on internal doors. External doors to be fitted with a weather seal to achieve building sealing to conform to BCA requirements. Sliding doors where shown on drawings to be fitted to a sliding door track.

3.6.3 Door Furniture

Unless otherwise specified in the specification, door locks and latches to be standard range with entrance sets to front and other external timber doors. Latch sets to all other internal doors except bathrooms and toilets which shall be fitted with Privacy sets. Robes, linen, pantry etc. to be fitted with suitable roller catches or similar and dummy trims.

3.6.4 Door Buffers

To be fixed where necessary to prevent door handles from touching walls.

3.6.5 Windows and Window Furniture

Windows to be hung or fixed as shown on plan, and its furniture to be as manufacturer's standard range unless otherwise specified in the specification.

3.6.6 Flywire Doors and Flywire Security Screens to Windows

Of the type, finish and location stated in the specification to be supplied and fixed.

3.7 Joinery

3.7.1 General

All joinery shall be run from good quality materials and shall be framed up in accordance with best trade practice and all joinery and mouldings shall be free from buzzer marks. All timber doors and windows and door and window frames and similar joinery shall be properly jointed in accordance with good trade practice. All joinery to be to detail and delivered to the site suitably oiled. Finger joining is deemed acceptable.

3.7.2 Door Frames

For cavity walls shall be ex 100mm x 50mm solid and appropriately rebated. For internal openings ex 50mm thick jambs shall be used. If timber thresholds are required by the specification they shall be ex 125mm x 50mm nosed with allowance for sealing per 3.7.3. Timber frames shall be suitable for a painted finish.

3.7.3 Window Frames

Awning and casement frames to be ex 100mm x 50mm solid timber rebated. Mullion and transom sections to conform to BCA requirements as to location and span. Sills to be 50mm minimum thickness weathered and throated.

3.7.4 Doors

To be framed and sheeted flush type manufactured of good quality materials. Doors both internal and external are to be of width, height and type shown on plan (minimum thickness 35mm) and as indicated in the specification.

3.7.5 Others

To be fitted as shown on the drawings and described in the specification.

3.8 Roofing and Roof Plumbing

3.8.1 Profiled Metal Decking

Profiled metal decking shall be manufactured of continuously run Colorbond sheet as stated in the specification. Decking shall conform to BCA requirements and AS 1562.2 and shall be fixed in accordance with manufacturer's recommendations.

3.8.2 Gutters

Gutters to be Colorbond to profile indicated on the drawings and/or the specification together with all necessary stop ends and nozzles. All joints and junctions to be lapped, sealed and riveted. Fix with galvanised straps to rafters or fascia as required.

3.8.3 Downpipes

Provide and fix where shown on drawings, downpipes of compatible material connected to outlets from gutters and including all necessary bends, shoes etc. Downpipes shall be secured to walls with not less than two straps. Downpipes shall be installed in such positions and of sufficient number to effectively dispose of the run-off water.

3.8.4 Rainwater Tanks

Not Applicable. Currently at tender rainwater tanks are a contract exclusion.

3.8.5 Valleys

To be lined with galvanised sheet steel turned up under roofing and for full width of valley boards, lapped 150mm at junction and having beaded edges. Valleys to be minimum of 300mm wide.

3.8.6 Flume Vent

Form ceiling vent of 150mm diameter steel sheet. Vent taken through roof, flashed and fitted with cowl.

3.9 Sanitary Plumbing

3.9.1 General

All fixtures required and specified below to be connected to the drainage system complete with all necessary traps, waste pipes, back vents, etc. in accordance with regulations.

3.9.2 General Waste Water and Drainage Etc.

All sewerage, drainage, sanitary plumbing and water supply etc. shall be carried out in strict accordance with the By-Laws and regulations of the water authority. The Tenderer shall provide and fix everything necessary to comply with these By-Laws and regulations even though not shown on the drawings or specifically mentioned herein. The Tenderer shall pay all inspection and other fees required.

3.9.3 Sewer Connection / Septic System Installation

Carry out all sewerage and sanitary plumbing and connect to septic / waste water system strictly in accordance with the standards of the Health Department. New kitchen wastes to connect to existing grease trap and waste water system. Any upgrades required to grease trap will be a contract variation.

3.9.4 Soak Wells

Not Applicable.

3.9.5 Leach Drains

Not Applicable.

3.9.6 Cold Water Supply

Lay on cold water service and distribute to all fittings in accordance with the appropriate regulations of the water authority.

3.9.7 Hot Water System

The type of hot water unit to be installed will be as specified in the specification. Connect hot water service to points as required in accordance with AS/NZS 3500. Gas hot water service being relocated as per drawings.

3.10 Drainage Works

Not Applicable.

3.11 Plaster and Tile

3.11.1 General

Finishes for each room as indicated in the specification. All rendering and plastering shall be carried out in accordance with general trade standards. All internal walls of brick or masonry (other than face finishes or where covered with feature materials) are to be cement rendered or float and set in hard wall plaster as necessary unless otherwise indicated on drawings. Walls lined over framing shall be gyprock.

3.11.2 Materials

All plastering work shall be executed with materials of good quality including sand which is sharp, clean and free from harmful materials. Lime shall be used in the form of pre-mixed lime putty run for a minimum of fourteen days or putty prepared from hydrated lime which has been run for not less than 24 hours in accordance with recognised trade practice. Gypsum plaster and cement shall be of good quality.

3.11.3 Float and Set

Not Applicable.

3.11.4 Ceilings

- Suspended grid ceilings shall be fixed and jointed to the manufacturer's instruction. It is not recommended to use the suspended gyprock system as per tender drawings due to lack of load bearing structural integrity for future maintenance.
- Sisal or glass fibre reinforced plaster sheets shall be fixed and jointed to the manufacturer's instruction.

3.11.5 Waterproofing

Provide water proofing to wet areas and the like to conform to BCA requirements prior to fixing of floor and wall tiling.

3.11.6 Wall Tiling

All wall tiles to be glazed ceramic of the size and colours selected. Tiles to be fixed with a suitable adhesive and joints to be horizontal and vertical with border tiles as required. Grouting in selected colours to be applied on completion. Areas of tiling to be as indicated on the drawings and in the specification.

3.11.7 Floor Tiling

Not applicable. Flooring to be coved vinyl sheet.

3.12 Electrical

3.12.1 General

The electrical installation to the point of supply is to be executed by a licenced electrical installer to conform to AS 3000, other relevant Standards and in accordance with the rules and regulations of the supply authority. The electrical diagram on or appended to the drawings shall give the outlet lay-out and position of all switches, points and relevant items. All accessories to be white unless otherwise specified.

3.12.2 Switches

To be supply authority approved rocker type set in architraves or skirtings with flush plates, or in metal boxes sunk into walls internally. All switches to be white unless otherwise specified.

3.12.3 Power Points

Provide and fix the number of power points shown on the electrical diagram and specified in the specification. Fittings to be uniform standard range flush plate 3 pin combined switch and plug sockets fitted into metal boxes as necessary.

3.12.4 Light Points

Provide and fix the number of switches and plastic batten holder lamp sockets as show on the electrical diagram and specified in the specification.

3.12.5 Exhaust Fan and/or Range Hood

Where shown on the electrical diagram or drawings, install exhaust fans of the size and types specified in the specification.

3.12.6 Off Grid Power Supply

Not applicable.

3.13 Painting

3.13.1 Materials

Ready-mixed paints of first class quality shall be delivered to the site in sealed containers. Turpentine shall be pure mineral turpentine. Putty is to be composed of linseed oil and whiting to a proper consistency and coloured to match timbers where necessary.

3.13.2 Preparation

All surfaces shall be properly prepared by the painter by scraping filling and sanding to ensure a uniform surface. Metal work to be properly rubbed down, scraped and wire brushed where required. Brickwork to be painted is to be dust and mortar nibs brushed off and any efflorescence removed.

3.13.3 Workmanship

Paints shall be thoroughly stirred before use. Dilution shall be permitted only when in strict accordance with the manufacturer's written instructions. All coats shall be sanded down and dusted off before the next coat is applied. No external work is to be done during or immediately after wet weather. Paint shall be applied in accordance with the Manufacturer's recommendations. Where oil based paints are used for external work a full 24 hours must be allowed between coats.

3.13.4 Completion

Touch up and remove all paint splashes from all fittings, floors, walls, etc. Secure any fittings or furniture removed prior to painting, remove containers and debris and leave clean and tidy.

3.14 Thermal Insulation

Insulation to be provided to ensure building element provides required R-value for floor, wall or roof (as applicable and as described in the specification). Insulation to conform to AS 4859.1 and Energy Efficiency Assessment Report. Ensure insulation does not affect safe or effective operation of electrical or plumbing services or fittings.

PROFESSIONAL PROFILE

A highly experienced sales and procurement professional with over 25 years' experience in corporate business to business contract negotiation and foreign trade with resource sector, construction industry and primary industry sector experience.

- Proven skills and success in business operations, contract management and compliance.
- A strong track record in tender and bid management, winning government and national corporate bids through both direct consultation and tenders.
- Technically savvy, with proven ability to design and implement company wide IT and ERP systems (SAP, Salesforce, MySys and others).
- Fluent in Mandarin Chinese. Extensive language and business experience working with a range of Chinese industries and their associated commercial technicalities.
- Supply chain development. Identifying potential suppliers through on the ground vendor selection and factory audits. Implementing ongoing supplier improvements and establishment of long-term relationships and supply contracts.
- Able to co-ordinate, participate in and direct all phases of the foreign trade, shipping and import process.
- Proven ability to handle multiple tasks under high pressure and consistently exceed KPI's, individually and as a team.
- Outstanding leadership and project management abilities.
- A polished persuasive communicator with excellent written, oral and interpersonal communication skills.

PROFESSIONAL EXPERIENCE:

2014 - Current **International Procurement Manager**
WBS Group Pty Ltd (Wheatbelt Steel)

- Established and implemented new overseas supply chains for structural steel and farm shed components from China.
- Designed custom buildings according to customer requirements in conjunction with Chinese engineers and draftsmen.
- Management of all elements of contract negotiation, manufacturing, quality control and importing processes with Chinese suppliers.
- Directing product research and development for overseas manufacture.
- Development and implementation of company intranet and proprietary ERP software for engineering, procurement, sales, inventory and operations.

2011 - 2014 **Commercial Sales Manager**
Excess Power Equipment & Electro Power Equipment

- Business Development of High Voltage Transformers and Switchgear sales and hire.
- Coordination of bids and tenders, including legal, commercial, insurance and risk management for EPE Wollongong bids.
- Tenders won include Endeavour Energy, Essential Energy, Patrick Stevedores, Newhaven Coal, Energy Power Systems, Viridian Glass.
- International travel for face-to-face contract negotiation and implementation, conducted in Mandarin Chinese. Language interpretation of negotiations for Directors when present.
- Management of overseas suppliers, including contract compliance and management, project management and factory acceptance testing of completed projects (China and Thailand).
- Implementation and administration of CRM program (Salesforce).
- Administration of QMS and HSE Systems.

2007-2011

Corporate Express Australia Limited
Area Sales Manager (2009 – 2011)

- Leading a team of 15 staff across a range of disciplines including account managers, support staff and product specialists.
- My team successfully met our budgets for Revenue and Gross Profit every quarter.
- We were responsible for a portfolio of over 2000 customers predominantly across WA with some national customers across a broad range of product categories and specialties. These included General Office Products, Print Management, Furniture, Facilities Supplies, Safety and PPE, Kitchen and Canteen Supplies and IT.
- Whilst leading my team, I handled contract management, tender and bid management.
- Tenders won include WA State Government CUA for computer consumables and WALGA.
- I was a leading member of the WA Safety Committee (Registered Worksafe Safety Rep) and was part of the WA team for SAP implementation.

2007-2011

Corporate Express Australia Limited
New Business Development Manager (2007-2009)

- New Business Development Manager for the WA State Branch of Corporate Express (Staples).
- Consistently met budgets for Revenue and Gross Profit every month without exception.
- Averaged eleven new accounts per month including securing significant accounts across a broad spectrum of product categories and market segments.
- Accounts included Mirvac, The City of Perth, Cape Australia, Bedshed, The Griffin Coal Mining Company, Xstrata Nickel and Best Bar Reinforcements.
- Developed new sales and bid management strategies to dissuade customers from going to tender or engaging expense reduction consultants. This often resulted in withdrawal of the tender and automatic award to Corporate Express.

2000 – 2007

**Company Director
GCI Investments Pty Ltd, WA
(Authorised Factory Distributor for The Scott Fetzer Co. of
Cleveland, Ohio, a division of Berkshire Hathaway)**

After founding the company with 2 staff, within 15 months we became the number one sales office in the Pacific region, with 50 staff and a multi-million dollar annual turnover.

Expanding with new offices opening in Sydney, Cairns and Mackay, we maintained our number one position for 3 years. I have also created and implemented a sales training program as a 5 DVD box set which is now being used nationally and in the United States.

Abilities include overseeing and directing all aspects of a sales company including:

- Customer service
- Maintaining and exceeding sales targets
- Recruitment and training
- Running daily sales and motivational meetings
- Advertising and lead procurement
- Legal and corporate compliance
- Accounts and finance control
- Statistical analysis of KPI's

10.2 Wandering Community Centre Quotation for Revised Electrical Works

File Reference:	11.111.11101
Location:	Down Street Wandering
Applicant:	N/A
Author:	Alan Hart, Chief Executive Officer
Authorising Officer	Alan Hart, Chief Executive Officer
Date:	4 September 2024
Disclosure of Interest:	Nil
Attachments:	Quotation from Stallion Homes
Previous Reference:	Wandering Community Centre Upgrade Committee Meeting 21 August 2024 – Item 4.2

Summary:

For the Committee to recommend to Council to accept the quotation for the revised electrical works as part of the Wandering Community Centre Upgrade.

Background:

The Wandering Community Centre is the hub for the Wandering community and has been identified as a building that needs to be upgraded to ensure that community expectations of a modern facility are addressed and the building is fit for purpose going into the future

Comment:

The committee requested that further investigation works be undertaken with the tenderer, Stallion Homes, with regard to the electrical works that is needed at the Wandering Community Centre to ensure that compliance with current standards is achieved and to minimise the cost of electrical works by doing the entire upgrade at once and whilst the building works are being completed and not in 2 stages.

The electricians attended an onsite meeting with the project manager on 28th August and assessed what is required to undertake a total electrical upgrade to make the building comply with the current standards, including replacing the main switchboard and installing suitable exit signs to the main hall.

The cost of the electrical works has been quoted at \$9,125.30 (ex GST). There however be a saving in the electrical works quoted in the tender of \$5,402.50 (ex GST), making the additional cost of the works of \$3,722.80 (ex GST).

Details of the works is attached.

It is recommended that the Committee recommend to Council to accept this quotation and vary the tender amount by \$3,722.80.

Consultation:

Hi Lou & Alan,

The sparkies have done their analysis, notes are below.

In short, the works noted will cost \$9,125.30 (ex GST), but will make the previously quoted tender works simpler (and tidier/better) which will save \$5,402.50 (ex GST) on the tendered price, meaning getting a new switchboard and making everything up to date and organised is the difference, being \$3,722.80 ex GST (on top of the electrical works noted in the tender submission). All this stuff really should be done, it is going to make the whole finished project much better, and is very little cost in my opinion.

Their recommendations for power supply and switchboards to community centre after the site inspection includes the following extra works:

- Replace the existing board in the foyer with a new commercial chassis board in the same location.
- Relocate the existing circuits to new board and including RCD protection as required.
- Solar board to remain as is to keep backup circuits separate from main supply.
- Emergency light test kit for existing emergency lights subject to wiring being suitable.
- This work is recommended to be done as part of the extension to avoid the need to install RCDs and breakers for items that will be removed during the extension

Notes:

- Following the site visit, it is observed that the current supply is larger than standard, it appears to be 3PH 100A.
- This is close to the maximum demand for the kitchen extension. However, typically the actual power consumption is less than the maximum demand. Therefore, it is advised at this stage to maintain the existing power supply as is. The cables leading to the community centre are adequately sized to handle the anticipated power requirements.
- The present switchboards are an amalgamation of three boards with circuits derived from all three boards.
- Installing a new circuit and breaker sufficient for the extension would entail a considerable effort. Instead of undertaking this and then adding an additional board in the extension, it is recommended to replace the two old switchboards with a new single board that would centralize all circuits in the building to one location. In addition to this there are 8 existing power circuits to the kitchen area that can be re-used for the extension. **This option will also save \$5402.50** on the cost of the current kitchen renovation.
- The solar board is new and there are advantages to keeping backup circuits separate so we would propose that this is left as a separate board adjacent to the main switchboard.
- We understand that the existing three phase exhaust fans and the electric hot water systems

are to be removed as part of renovations. We have not allowed to reconnect these in the new switchboard.

Please let me know your/Council's decision?

Thanks again,

Kind Regards,

Andrew Sharpe

11. New Business or Urgent Business Introduced by Decision of the Meeting

New business of an urgent nature introduced by decision of the meeting. Best practice provides that Council should only consider items that have been included on the Agenda (to allow ample time for Councillors to research prior to the meeting) and which have an Officer Report (to provide the background to the issue and a recommended decision).

11.1 Elected Members

11.2 Officers

12. Matters Behind Closed Doors

13. Closure of Meeting

The Presiding Member to declare the meeting closed.
